

Tier 3 Public Notice Instructions

WHEN NOTICE MUST BE PROVIDED -Public water systems must provide the public notice no later than one year after the system learns of the violation or situation. If the public notice is posted, the notice must remain in place for as long as the violation persists, but in no case less than seven days (even if the violation or situation is resolved).

CREATE A PUBLIC NOTICE - The page titled "IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER" is a public notice template for your use. You may wish to modify it before using it for radio or TV notice. If you do, you must include all required elements and leave the italicized health effects language unchanged. Respond to all questions on the attach template and provide accurate contact information.

Public notice for community water systems must, at a minimum, meet the following requirements:

- Mail, or other direct delivery, to each customer receiving a bill and to other service connections to which water is delivered by the public water system (for example: purchase systems); and
- Any other method reasonably calculated to reach other persons regularly served by the system. Other methods may include, but are not limited to, newspaper, radio, hand distribution, posting in public places, internet, or using community organizations.

SUBMIT DOCUMENTS TO DEQ: Submit to DEQ within 10 days of completing the public notification a representative copy of each type of notice made available to persons served by the system and the media. Include a certification that you have fully complied with the public notice requirements.

NOTICE TO NEW CUSTOMERS: Community water systems must give a copy of the most recent public notice for any continuing violation to all new billing units or new customers prior to or at the time service begins.

If you have any questions, please call Kylie Beasley at 405-702-8165 before sending the Public Notice to your customers.

Certification of Public Notice

PWSID #: OK1011101 Public Water Supply Name: COMANCHE PUBLIC WORKS AUTHORITY
COUNTY: STEPHENS Date PN Distributed: 6-22-23

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

COMANCHE PUBLIC WORKS AUTHORITY DID NOT MEET MONITORING REQUIREMENTS

Our water system violated drinking water requirements pertaining to the contaminate(s) of concern listed below. Although none of these violations are considered emergencies, as our customers, you have a right to know what happened and what we are doing, or have done, to correct these violations. Customers are not at risk and there is no reason to suspect any potential adverse health effect. Alternative water supplies are not needed.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the following monitoring periods, we did not monitor or test for the following contaminants, and therefore cannot be sure of the quality of your drinking water during that time:

Type of Sample(s)
CHLORITE

Monitoring Period(s)
03/01/2023 TO 03/31/2023

WHAT SHOULD I DO? Nothing at this time

WHAT HAPPENED? WHAT IS BEING DONE? The chlorite sampling is a new testing requirement that became effective January 1, 2023. We now have this test scheduled with our other water monitoring tests.

WE HAVE RESOLVED THE PROBLEM as of April, 2023.

FOR MORE INFORMATION, please contact Chuck Ralls at (580) 439-8832 or 500 North Rodeo Drive, Comanche, OK 73529.

 6/22/23

Chuck Ralls, City Manager Date

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly. You can do this by posting this notice in a public place or distributing copies by hand or mail.
